

Entity Relationship Diagram: Week 3 Submission

1.1 – Group

- Matthew Jones
- Rui Tong
- Dimitar Atanasov
- Mehdi Ghemati

1.2 – Interpretation of coursework requirements

- Users cannot be both a buyer and a seller: they must choose
- All buyers and sellers have the same privileges e.g. no 'premium' buyers or sellers
- Sellers can't watch items – only buyers
- Items can only have one category
- There is no benefit in terms of assessment (i.e. no extra marks) from going beyond the requirements stated in the 'Coursework brief' document. For example:
 - Users as both buyers and sellers
 - Marking status of goods as paid for, dispatched or delivered
 - Buyer/seller ratings
